

LSI is an international provider of English for Specific Purposes (ESP). Supporting training projects of all sizes, we have an excellent track record in delivering training for corporate and government clients.

For 3 years LSI has been providing specialist instructors to deliver English language training programmes for the Defence Academy of the United Kingdom. Courses are for foreign military personnel undergoing sponsored training with the MOD, as part of the UK's Defence Engagement Policy. Courses prepare participants for:

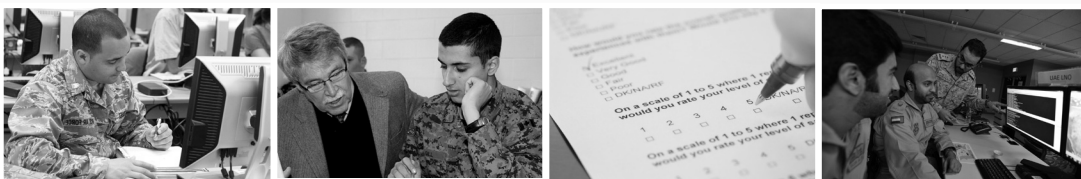

- RMAS (Sandhurst)
- RCDS (Royal College of Defence Studies)
- JSCSC (Joint Services Command and Staff College)

In 2017 we were selected to provide all English language training to overseas military students training with the RAF at the Defence School of Aeronautical Engineering (DSAE) at RAF Cosford.

This will make us the largest provider of Military English training in the UK.

We also have a strong presence in the Middle East and North Africa, with regional offices in Dubai and Algeria, and ongoing training programmes in Algeria, KSA, Qatar, Kuwait and Jordan.

## We offer our customers:

- Tailor-made materials and progress assessments, available on our in-house VLE
- Blended-learning approach combining online and virtual study with face to face lessons
- Mother-tongue instructors experienced in teaching military English around the world
